# Company Profile

**Thai Conveyor Belt Co.,Ltd.**

## **Parts Fabrication, Assembly & Modified**

- Belt Conveyor
- Chain Conveyor
- Free Roller, Power Roller
- Trolley & Overhead Chain
- Duct Collertor
- Exhaust Duct

Tel : 02-536-6853, 02-5366849  
Fax : 02-536-7521

## Thai Conveyor Belt Co.,Ltd.

We have been doing business in belt conveyor maintenance services for many years. Our current customers are in various industries such as cement, petrochemical, and power plant e.t.c. Now, the Thai government has gradually privatized the state enterprises while many big private firms in Thailand have already outsource non-core business to others in order to keep their competitive advantage. Therefore, business opportunity of products and services related to belt conveyor handling system is also inevitably expanding.

### Scope of Business : Conveyor Belt Services & Maintenance

Established : November 25, 1997

Start Operation : November 25, 1997

Registered Capital : 1,000,000 Baht

No. of Employees : 50 persons

### Address :-

#### Contacted Add:

Bangkok : 600/1381 Moo14, Pahon-Yothin 79 Rd.,  
T.Kukot,A.Lamlookka,Patumthani, 12130, Thailand  
Tel. (662)536-6853, Fax. (662)536-7521

#### Registered Add:

Saraburi : 114/44 Moo9, T.Banpa,  
A.Kangkoy, Saraburi, 18110, Thailand  
Tel. (663)624-7430, Fax. (663)624-7089

#### Branch Add:

Chonburi : 9/46 Moo4, T.SuraSuk, A.Sriracha,  
Chonburi, 20110, Thailand  
Tel. (663)831-0851, Fax. (663)831-0654

Lampang : 65 Suandok Rd., T.Suandok, A.Mueng,  
Lampang, 52100, Thailand  
Tel. (665)421-9080, Fax. (665)422-8477

## **PARTS FABRICATION , ASSEMBLY , AND MODIFIED**

- BELT CONVEYOR
- CHAIN CONVEYOR
- ROLLER CONVEYOR (FREE & POWER)
- TROLLEY & OVERHEAD CHAIN CONVEYOR
- LIFTING SYSTEM
- SCREW CONVEYOR
- BUCKET ELEVATOR
- DUCT COLLCTOR
- SCUBBER
- EXHAUST DUST
- FLIGHT & SCRAP CONVEYOR
- MADE TO ORDER

### **BELT CONVEYOR**

We can design and manufacture much kind of belt conveyor for appropriate service and operation in various industries such as : Food & Medical Industry , Electric part Product # Assembly Industry , Consumer Industry , Automotive Industry or cement & Building Industry etc.

[www.thaiconveyorbelt.com](http://www.thaiconveyorbelt.com) / [www.saipanthai.com](http://www.saipanthai.com) / E-mail : [tcb@thaiconveyorbelt.com](mailto:tcb@thaiconveyorbelt.com)

## Our product option

- Various conveyor belt materials can be used for the appropriate operation with respect to the materials being conveyed : PVC , Polyurethane (PU) , rubber or fabric.
- Structure , support , frame , cover , chute and guide are made from steel , aluminum or fabric
- Operation speed of the conveyor is either
  - Additional working table can be applied at either or both sides of a conveyor that is used in operations involving human work , such as electronic parts production and assembly , food and medical production etc.
  - Additional lights to the work spot can be installed for operator's convenience
  - Additional guide can be applied to prevent material flow to wrong direction.
  - Additional electricity and air apply plugs are applicable for related equipment.
  - Additional guide can be applied to prevent material flow to wrong direction.
  - Additional cover can be applied for dust protection and easy floor cleansing.
  - Installation is accomplished accordingly to the requirements of the operating environment such as indoor , outdoor , underground , floor and overhead.
  - Installation can be accomplished in conjunction with other equipment such as oven , scale , filling machine , printing machine , counting machine , barcode scanner and sizing machine etc.
  - Conveyor width and length can be utilized according to each operation and application respectively . Drive unit will be designed and selected by using our engineering expertise . Manufacturing , assembly and installation will be accomplished by our highly experienced technical team . Quality is monitored in all stages of the processes respectively.

## Chain Conveyor

We design and manufacture many kind of chain conveyor for appropriate with following features.

- Conveyor chain materials steel or stainless steel.
- Structure materials, aluminum or stainless steel.
- Additional side guide to prevent materials outflow.
- Additional bottom tray.
- Operable with other equipment :
  - Scale
  - Oven
  - Dryer Fan
  - Counter
- Additional table , electricity and air supply plugs. Dimensions and drive power are designed for optimized operation.

## Bucket Elevator

We design , Manufacture and Maintain various kind of bucket elevators. Our products operate in many industries like :

- Fertilizer Plant
- Cement Industry
- Steel Industry
- Food and Medical

Features :

- Power transmission type belt or chain.
- Structure materials steel or stainless steel.
- Bucket materials steel , stainless steel or PVC.
- Discharge type centrifugal or continuous.
- Additional feeding equipment to control materials inlet.
- Additional pneumatic chute to control materials outlet.

## Screw Conveyor

Our screw conveyors are applicable to many industries . We design and construct screw conveyors with following features.

### Feature :

- Construction material steel or stainless steel.
- Additional feeder to control materials inlet.
- Casing U-Type or Tube.
- Blades left or right hang.
- Blades pitch manufactured with  $\frac{1}{2}$  D ,  $\frac{2}{3}$  D , 1 D or variable pitch.
- Additional pneumatic slide gate to control material outlet.

## Roller conveyor

We have many kind of roller conveyors which can be divided by properties as follows :

### 1. Roller materials :

- Zinc Plate
- Rubber coated steel.
- Polyurethane coated steel.
- Stainless steel.
- Industrial plastics (PVC)

### 2. Structure and frame construction materials :

- Steel
- Stainless steel
- Aluminum

The roller conveyor has lower capital and operational costs than other types of conveyor. It can in conjunction with other equipment easily .That is why the roller conveyor is popular in various industrial applications and operations.

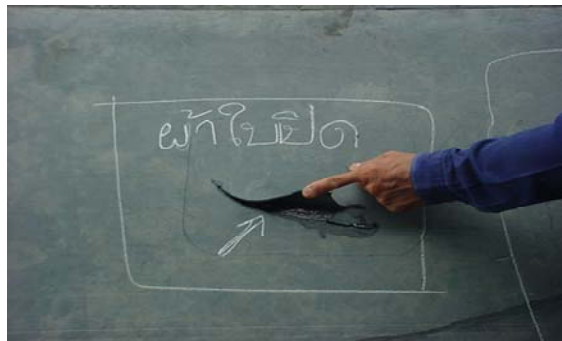

We design and manufacture high quality roller conveyors by using our engineering expertise. Our roller conveyors can easily be installed in conjunction with other equipment , such as scale , filling machine , counting machine , barcode scammer , sizing machine etc.

งานต่อสายพาน ต่อร้อน - ต่เย็น  
(Hot & Cold Vulcanized)  
สามารถต่อสายพานได้สูงสุด 2.4 เมตร

หุ้มยางพูลเลย์  
(Pulley Lagging )

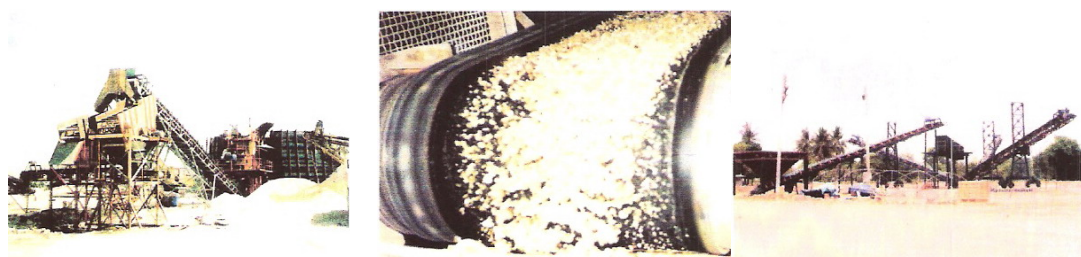

งานซ่อมแผลสายพาน  
(Belt Splicing)

งานม้วนเก็บสายพานลำเลียง

งานออกแบบระบบลำเลียง (Conveyor Design)
